- Sara Harrington

Community Job Placements.

The Vocational Rehabilitation Program has been busy assisting people with obtaining paid job training and job placements. During the month of August, five people started new jobs. Thanks to Portal LLC, Skilled Creations, McDonalds and Walgreens!

LCI also placed four people in paid internships through the American Recovery and Reinvestment Act. Thanks to our business partners for giving us this opportunity:

- Holiday Inn
- Piggly Wiggly, Sanford
- Tyson Mexican Original
- Sanford Health and Rehabilitation

LCI Opens the Village Library.

With the help of staff from Central Carolina Community College, LCI staff and program participants were able to open their own library. The goal of the library is to provide a safe, comfortable reading environment for LCI students and staff.

LCI Board members Neal Kightlinger and James Jessup sign in at the Library Grand Opening
